MAP YOUR NEIGHBORHOOD FACILITATOR

Map Your Neighborhood facilitators guide the neighborhood through the process.

I mapped my neighborhood on June 2, 2019 by inviting neighbors to my home to learn more about disaster preparedness, and creating this map in Adobe Photoshop (identifying information blurred.)
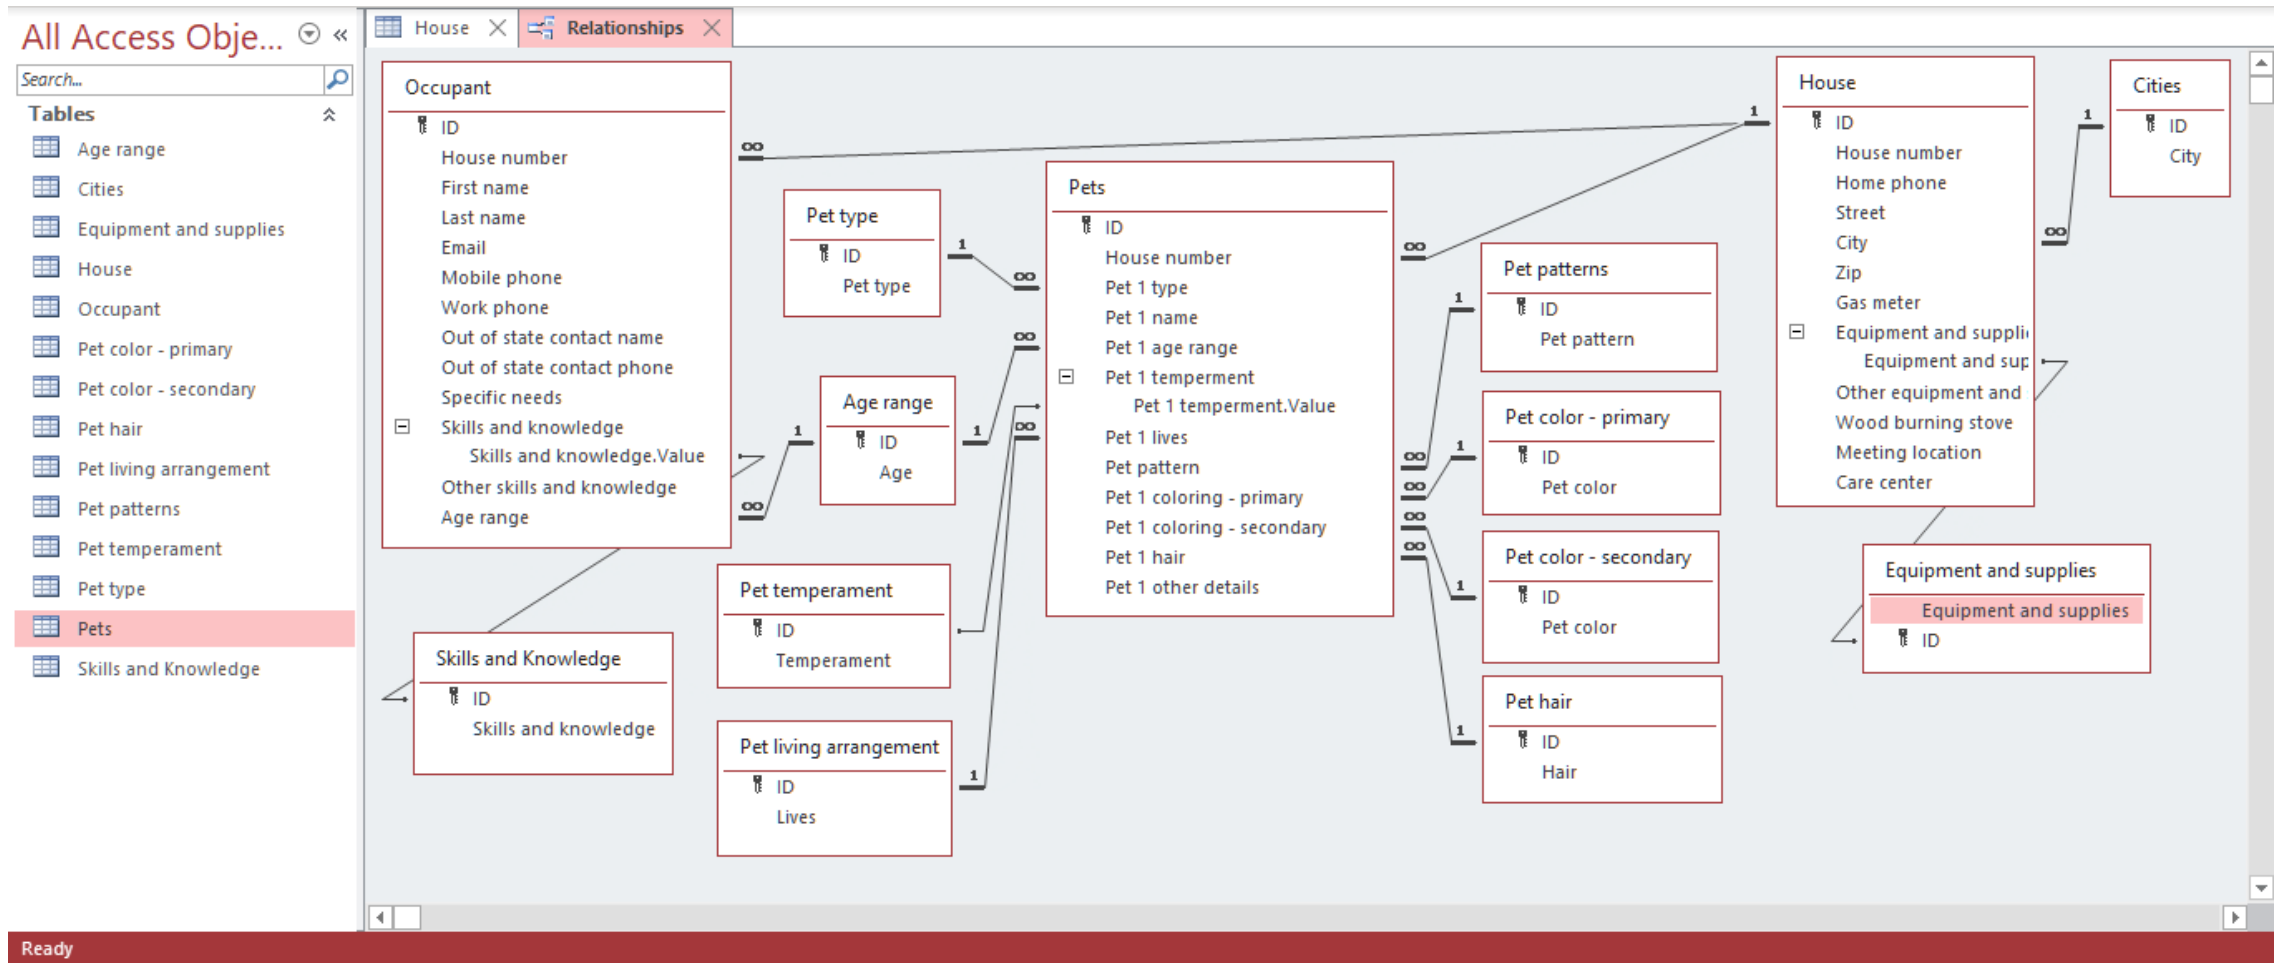

Everyone filled out forms with home occupants, skills, and equipment. I built a MS Access database to reflect this form information to share with other MYN programs in Kirkland.

So far 5 of 16 houses have joined, with 4 more showing interest. Next meeting and BBQ in August.
